### Part 1

### SUMMARY:

This week on *Let's Talk Creation*, Paul's the expert on the geologic column while Todd plays the interviewer asking many questions people have about this subject. How was the column created? Who all came up with the concept? And doesn't a global pattern like this call for a global explanation? Although they only start the conversation you won't want to miss what they have to say. Take some time and listen to the science podcast that's just for you!
